

# Taha Labrahimi

Future Software Engineer

## Personal details

-  Taha Labrahimi
-  taha.labrahimi.dev@gmail.com
-  +212641797275
-  dyar Imanssor 2  
12000, Tamessna
-  Taha Labrahimi
-  taha-labrahimi

## Compétences

### Programming Languages

- Java, JavaScript, Python, C++, C#

### Backend Frameworks

- Spring Boot, JEE, Django, .NET

### Frontend Frameworks

- Angular, Reactjs

### Databases

- MySQL, SQL, PL/SQL, Oracle DBA

### Modeling

- UML

### Methodologies

- Agile Methods

## Langues

**Arabic:** Native

**English:** Advanced

**French:** Intermediate

## Profile

A 5th-year computer engineering student, motivated and passionate about technological innovation. I am seeking an internship at the end of my studies to contribute to the development of advanced software solutions and further refine my skills.

## Education

### Computer Engineering and Networks

Ecole Marocaine de Science d'Ingénierie(EMS), Rabat

2022 – Present

### Specialized Technician in Software Development

Institut Spécialisé de Technologie Appliquée NTIC, Rabat

2020 – 2022

### Baccalaureate in Physical Sciences

Lycée Ibn Taymiya, Tamessna

2019 – 2020

## Professional Experience

### Full-stack Developer

Sorec, Rabat

Jul 2024 – Sep 2024

- Led the development of the "Dashboard Cash Management" project using Spring Boot (backend) and Angular (frontend), optimizing cash flow management.
- Integrated Jasper Reports for dynamic report generation, offering flexible and customizable reporting solutions.

### Software Developer

Safran, ain atiq

Jun 2023 – Jul 2023

- Participated in the development of an application for stock management using Python and PyQt, tracking stock prices and improving company process efficiency.
- Deployed the application and ensured a smooth integration of the solution into the company's environment, ensuring fluid user experience.

### Front-End Developer

Lanatech, London

Jan 2022 – Apr 2022

- Contributed to the front-end development of a real estate management site, implementing various interfaces using HTML, CSS, and JavaScript, and integrating dynamic functionalities using Reactjs.

## Academic Projects

### Dental Office Management Application

Development of an application using the Spring framework

2024

### E-learning Application (QuickLearn)

QuickLearn is an innovative e-learning platform powered by Django.

2023

### Real Estate Management Web Application

Application de gestion immobilière développée avec le framework Reactjs

2022

## Certificates

### Python for Everybody University of Michigan

by Coursera

Apr 2023

### Software Engineering Modeling Software Systems using UML

by Coursera

### React Basics

by Coursera
